

GUIDENCE OF ROOM FACILITIES

Thank you for staying at Hotel First Stay Amagasaki.
We will provide the guidance of room facilities to make your stay comfortable.

■ Key Sensor

Please insert your key tag in the wall key box (key sensor) upon entering the room and the lights can be turned on. The door is an auto-lock, please take your key with you when you leave the room (and leave your key at the front desk when you go out.)

■ Bedside Control Panel

The upper part is the switch for the entrance, and the lower part is the switch for the room. The emergency flashlight is also available, please use in emergency.

■ Kettle

The tap water in the bathroom is drinkable.
Please use it for making tea.
Please DO NOT drain except water.

【How to use】

Open the top lid and pour water.
Put it on a dedicated stand and turn on the switch on the handle.
It turns off automatically when boiling.

Pour water in the Water Tank

Pour tap water in the Water Tank to operate the unit in the clean air & humidify mode.

1	<p>Handle of water tank Water tank</p>	<p>Press down the Handle of Water Tank, and then pull it to take the Water Tank out</p> <ul style="list-style-type: none"> • Take care not to spill water.
2	<p>Tank cap Refill water up here Water tank</p>	<p>Unscrew the Water Tank Cap and pour tap water in the Water Tank</p> <ul style="list-style-type: none"> • Before refilling water, drain small volume of water remaining in the Water Tank and rinse it by shaking it with a small amount of fresh tap water. <p> The Water Tank is self-standing.</p>
3		<p>Tighten the Water Tank Cap</p> <ul style="list-style-type: none"> • Tighten the Cap firmly to make sure no water leaks out.
4	<p>Click</p>	<p>Install the Water Tank</p> <ul style="list-style-type: none"> • Be sure to wipe off water droplet on the Water Tank. • Take care not to get fingers caught between the main unit and Water Tank. • Firmly hold the main unit for mounting the Water Tank.

Caution

- Do not use other water than tap water. (Saprophytic bacteria could propagate)
- Do not pour hot water 40°C or higher, aroma oil, chemicals, dirty water, detergent or aromatic substances into the Water Tank. (Cracks and/or water leakage could result)
